InfoAnytime Eliminated Due to State Budget Holdbacks

CLC's Executive Director Christine Bradley released the following message to the Connecticut library community on September 29:

“CLC's support for InfoAnytime is cancelled THIS Wednesday, September 30, due to the devastating news just announced about severe budget "holdbacks" in this fiscal year (July 1, 2009-June 30, 2010).

A combined total of \$120,556 in state funding is gone from CLC's grant and from InfoAnytime.

I would have liked to give the library community more notice, but the cost of extending InfoAnytime for one extra month would be \$4,175 (in addition to the \$12,500 we have already paid for the quarter ending September 30, 2009).

CLC just does not have the money.

We will directly notify the 134 public libraries, 28 academic libraries, and iCONN, who offer a gateway to InfoAnytime on their websites.

I have enjoyed working with all of you and all the staff at Tutor.com. It is with great regret that I announce the end CLC's support for InfoAnytime.” — **Christine Bradley**

What the Budget “Holdbacks” Mean

CLC has learned that built into the overall state budget were bottom line adjustments to General Fund appropriations of over \$473 million which will result in significant "holdbacks" for many state agencies, including the State Library. These are not technically reductions in appropriations, but the funds will not be allocated.

See page 6 for all state library holdbacks.

The budget “holdbacks” include, but are not limited to:

- **CLC**—reduction of \$84,389 from \$350,000 to \$265,611
- **InfoAnytime**—reduction of \$36,167 from \$42,500 to \$6,333 (**update on page 6**)

What's Next for CLC and InfoAnytime

InfoAnytime has been discontinued. Additional changes, if any, will be announced via CLClist, in *CLC CONNtext*, and on the CLC website at www.ctlibrarians.org.

**A Possible Solution**

Carl Antonucci of Capital Community College and **Sandy Long** of Madison Public Library have come up with a cost-sharing proposition for saving InfoAnytime.

The vendors are asking us to provide "a better sense of the number and type of libraries who have decided to continue." We need to know which of the 134 public and 28 academic libraries currently participating are interested in continuing (or not) on a cost sharing basis.

We ask that all current Infoanytime libraries **respond to dzulick@ctlibrarians.org either yes or no by Friday, October 16.** If there is any way we can continue to provide this important service we must do our best to pursue it.

See what's planned at www.ala.org/ala/conferenceevents/upcoming/midwinter/2010/index.cfm. CLC may coordinate a bus, but first we want to see what days are most popular. Email dzulick@ctlibrarians.org if you would be interested in a bus, and let her know what day(s) and where you would be coming from. The cost will depend on how many people sign up—probably around \$20 a seat.

What are these four FLAG-gers looking at?

Governor's Budget Holdbacks Devastate Statewide Library Programs

Holdbacks? A cut by any other name is still a cut. Many good people worked very hard all summer long to convince the leaders of the General Assembly that funding for statewide library programs needed to be maintained at FY 2008-2009 levels. The 2009-2010 budget was passed with library programs intact and became law without the Governor's signature; then, two weeks later, we received notice of the Governor's holdbacks:

- **iCONN, reduction of \$461,722 from \$1,968,794 to \$1,507,072**

The following databases will be eliminated for all academic libraries: CINAHL full-text (indexing will remain), and Campus Research from WestLaw.

The following databases will be eliminated for all libraries: Associated Press Images and Boston Globe.

- **reQuest, reduction of \$181,437 from \$674,696 to \$493,259**

The State Library is currently negotiating with the vendor that provides this service for reductions in costs. There will be reductions in service levels but it is not clear at the moment what these will be.

- **Interlibrary Loan Delivery Service, reduction of \$2,734 from \$266,434 to \$263,700**

The holdback will necessitate a reduction in the number of stops provided each week to libraries and their patrons.

- **Connecticut State Library Legal/Legislative Library Materials, reduction of \$151,488 from \$1,140,000 to \$988,512**

- **Connecticut State Library, Other Expenses, reduction of \$161,451 from \$807,045 to \$645,594**

Help Fight these Holdbacks: What You Can Do

The House lawyers have asked the CLA lobbyist Bobby Shea for more specific information about the holdbacks.

While we are pursuing the "legal" options with the House lawyers, Bobby urges us at the same time continue to ensure that librarians and board members throughout Connecticut are contacting the following people to respectfully ask them to reconsider their recent holdbacks:

- Governor Rell—Governor.Rell@ct.gov
- Lieutenant Governor Fedele—LtGovernor.Fedele@ct.gov
- OPM Secretary Genuario—Robert.Genuario@ct.gov

Please rally supporters to send their emails today!

InfoAnytime Update: What Patrons Will See When They Click on the Link

As of October 1, InfoAnytime has closed. The immediate fate of InfoAnytime is unknown, as the fight continues to reinstate funding and/or negotiate a cooperative purchase of virtual reference.

Many have asked CLC if they should remove their InfoAnytime link or not. Thanks to a great suggestion from Alan Hagyard at LION, Inc., CLC and Tutor.com have just updated all InfoAnytime links on library websites. If a patron clicks the InfoAnytime logo on a homepage, instead of a dead link, or an error message, they will see the following:

We're sorry, InfoAnytime is unavailable. Unfortunately, state budget cuts have forced us to shut down your InfoAnytime service until additional funds can be found to keep the service open.

We Need Your Help.

Contact Governor Rell (Governor.Rell@ct.gov); Lieutenant Governor Fedele (LtGovernor.Fedele@ct.gov); and OPM Secretary Genuario (Robert.Genuario@ct.gov) to respectfully ask them to reconsider their recent holdbacks to library services. Knowing that people like you think InfoAnytime is a valuable service, we may be able to get the needed funds to support the program.

We hope this helps prevent any confusion with your patrons who use InfoAnytime and spurs their support!

As an owner of his own minor league baseball club, Twain was aware of how the national game mirrored the best and the worst traits of our national character, and he developed these themes most comprehensively in *A Connecticut Yankee in King Arthur's Court*.

The Latest on CLC's Live Job Assistance Service

JobNow connects public library patrons with a professional job coach who will critique their resume and provide advice about interviewing. With a simple, easy to use interface, JobNow allows patrons to create an account, post their resume, receive feedback within 24 hours by one of over 1,000 job coaches, and chat live with a professional about their resume or get interview tips.

The September 2009 JobNow statistics for participating public libraries are available at www.ctlibrarians.org/services/jobnow. Ninety public libraries are offering JobNow. The service received good press in the Hartford Courant (see the article at [http://www.courant.com/community/hc career1004.artoct04,0,7740227.story](http://www.courant.com/community/hc%20career1004.artoct04,0,7740227.story)), and a number of libraries have run articles in their local papers and newsletters.

A librarian in Litchfield County received the following email from a patron regarding JobNow:

“I just wanted you to know that I used the Resume Assistance feature of JobNow and was impressed with the results. I had previously attended three resume workshops and had my resume reviewed by the CT Department of Labor, a Licensed Professional Counselor from a local community college, and a representative from an international Management Resource firm. The analysis and feedback I got from the JobNow coach was by far the most helpful.”

If you have a JobNow success story or patron feedback you would like to share please send it to jobnow@ctlibrarians.org.

We frequently update our JobNow Resources at www.ctlibrarians.org/services/jobnow with FAQs, an up-to-date list of participating libraries, publicity material, and training opportunities, so visit us often!

See the Power of JobNow; Try a Free Demo Today!

The power of JobNow is that it will direct your patrons who need professional resume help away from your busy reference desk and to job coaches who are able to provide a quality service.

Brainfuse has set up a free demo account so public libraries can test drive JobNow. Email Deb Zulick at dzulick@ctlibrarians.org for access information.
